

COMPANY PROFILE

Our Heritage

Himarsh Overseas, premium Indian exporters and importers, Baddi, Distt. Solan, Himachal Pradesh, India is a part of our Group Companies, parent company being M/s. H.N. Singh & Co., Solan and our Legacy goes back to more than 50 years when we started our entrepreneurial journey in the year 1972 and the first company was established in North India, by our father, under the name & style of M/s. H.N. Singh & Co., Solan, Distt. Himachal Pradesh, India. The company was engaged in Government & Commercial Borewell and Tubewell Drilling projects across North India.

In view of our diversification & global expansion, we established in the year 2026, M/s. Himarsh Overseas, a new-generation International Trading Company, built upon a strong family business heritage spanning more than five decades.

Over the years, the business developed valuable experience in project execution, field operations, equipment management, customer relationships and long-term commercial commitments. This early foundation established the principles that continue to guide our business today: integrity, quality, reliability and commitment to customers.

Additional verification documents available on request for confirmed buyers.

Water-Well Drilling

In the year 1995, as part of the family's continued business expansion, we established another Company under the name & style of M/s. S.P. Singh & Company, Nalagarh, Solan, Himachal Pradesh, as a parallel Water-Well Drilling enterprise.

Steel Manufacturing

In the year 2011, our family took another significant step by entering the steel manufacturing sector with the establishment of M/s. Timco Steel Company, a Steel Plant based in Baddi, Solan, Himachal Pradesh.

Timco Steel Company manufactures premium-quality steel reinforcement bars, including TMT Bars, serving the construction and infrastructure sector. The establishment of the steel plant marked a major transition from service-based and project-oriented activities into industrial manufacturing and construction materials.

This experience further strengthened our understanding of manufacturing operations, quality control, industrial procurement, raw-material management, production and supply-chain operations, construction-sector requirements and commercial customer relationships.

Entering the Global Marketplace, 2026

After more than five decades of family business experience and decades of entrepreneurial activity across different sectors, we decided to enter global market and established another Company under the name & style of M/s. Himarsh Overseas with the vision of taking our business experience beyond India and developing long-term relationships with international buyers and suppliers.

Our objective is not simply to sell products overseas but to build long-term international partnerships based on quality, transparency, reliability and professional service.

Our Products

Our present products portfolio under M/s. Himarsh Overseas, for international market includes: Textile & Handloom Products, Bamboo Products, Handicrafts items, Wooden Furniture items besides our own manufactured Steel Products as above including MS Steel Tube Pipes of all Dia 5" to 24", Submersibles Motors & Pump Sets and Electrical Cables 3 Core up to 12 mm.

Open to sourcing other product categories on request.

Quality & Documentation

We work with carefully selected manufacturers and suppliers and review product specifications and available documentation according to buyer requirements. Depending on the product and destination, documentation may include commercial invoices, packing lists, certificates of origin, inspection reports, COAs, test reports and other applicable export documents.

Markets We Serve

Africa

Middle East

Europe

Southeast Asia

Other International Markets

We work with importers, distributors, wholesalers, retailers and businesses seeking reliable sourcing from India.

Our Business Philosophy

Although Himarsh Overseas is a new international trading venture, our approach is backed by a family business journey that began in 1972. The values developed through generations of business remain at the heart of our company:

- Integrity in every transaction
- Commitment to quality
- Reliability in delivery
- Transparent communication
- Responsible business practices
- Long-term customer relationships
- Continuous learning and improvement

We believe that international business is built not by one successful transaction, but by consistently delivering what has been promised.

Our Vision

Our vision is to establish Himarsh Overseas as a trusted and respected Indian trading partner in international markets, representing quality Indian products and connecting with carefully selected buyers worldwide.

Our Mission

- Source quality products from reliable Indian manufacturers and suppliers.
- Provide overseas buyers with consistent quality and professional communication.
- Maintain transparency throughout the sourcing and export process.
- Build efficient and dependable supply chains.
- Develop long-term relationships rather than focusing only on individual transactions.

This is all for the present, and we seek your association and co-operation for this endeavor and shall welcome any suggestion from your side.
